Red Cross Chapters Challenged Into Preparedness Action

"Los Angeles Red Cross and chapters across the nation have been challenged into preparedness action by President Truman's address to Congress—a challenge which must be accepted and fulfilled!"

William T. Sesson jr., chairman of Los Angeles Red Cross chapter and a member of the national board of governors, so emphasized this week in a "face-the-facts" statement directed to Mrs. A. L. Hudson, chairman of the fund appeal in Torrance.

Progress must be accelerated in the current fund-raising program "so that the American Red Cross will be prepared to meet all eventualities," Sesson warned.

"In the wartime absence of doctors and nurses, housewives trained in Red Cross nursing methods comprise our first line of defense at home against war-born epidemics," Sesson stressed, adding that "such a community-wide program of instruction and service must be maintained at the highest possible peak."

"Should the Selective Service draft system be revived, Red Cross will be at the side of men sent to training camps and its representatives will be following battalions and divisions if needed overseas," Sesson added. "Red Cross must be ready to serve, as in the past, as the sole link between men drawn away from their homes in times of crisis."

Door-to-door canvassers, in this community were urged to answer this challenge by fulfilling their campaign assignments within the next few days.
